Transcriber's Office

April 23, 1999 LB 393, 704

probably want to have 30- or 60-day permits. Why doesn't a 1-day permit work? It doesn't work because there are cranes rental companies and they will have a crane at one location doing one piece of work. Because the city wants to identify the route that the crane takes, they have to go in early to get the crane, not, moving permit, not on the day of the use of permit but before, and then if there's any kind of a problem of weather or completing the project on time, the 1-day permit isn't accurate. It doesn't fit the day in which the crane needs to be moved because the construction schedule is off. So what do you do? You wait another week so you can get another 1-day permit and hope that one is the right. No, cities are...cities may prove to be boneheads on occasion, but on this situation, they've figured out, wait a...wait a second, a 30-day permit makes perfect sense. What we are doing in the field is either not having a permit or having a permit longer than the state requires cities to do and nobody is following the law. That really is an intolerable circumstance. I am grateful for the crane rental in bringing...to bring this issue to my attention. The city of Lincoln supports this. The Department of Roads has indicated that this is a good idea, since most everybody else is doing it, and I don't know of any opposition. It was reported out unanimously. It was LB 394, 393, and I would ask for the adoption of the amendment, so that practice, which is sensible, conforms to the law, which is not, by changing the law to be sensible. Thank you.

PRESIDENT MAURSTAD: Thank you, Senator Landis. For discussion on the Landis amendment, Senator Chris Peterson.

SENATOR C. PETERSON: I am sorry. I apologize, Mr. Speaker. Senator Landis, I just thought I would make the comment that there will be a consent calendar, but I pass and give my time to Senator Landis.

SENATOR LANDIS: I'd love a consent calendar. I'd love to do this on General File.

PRESIDENT MAURSTAD: Further discussion on AM1394. Seeing no lights, Senator Landis, would you like to close. Senator Landis waives closing. I'll pass up the opportunity to comment on...(laughing). All those in favor of the Landis amendment
